

GAUGE 3 Mk1 COACHES

Exhibition Standard Second Class Corridor in Crimson & Cream

The ubiquitous SK...

The Mk 1 Second Class Corridor coach (SK) was produced in greater numbers than any other type for British Railways. The G3 model

is a faithful reproduction of the SK which would have featured significantly on a majority of main line express trains.

An exhibition class model...

The model is built to the highest standards to provide the perfect complement to the G3 Britannia. The model has steel chassis and wheels, brass body with opening doors and detailed interior. It is supplied ready-to-run, fully painted and lined, in classic Crimson & Cream livery. Each coach is a collector's piece in its own right - perfect for showcase display, or ready to take pride of place behind your Britannia to create the ultimate main line express train - the main attraction at any get-together!

Coaches of this quality can never be cheap, but at £1,195 each (inclusive of VAT) we believe they offer excellent value-for-money. The Mk1 SK coach will be subject to a one-off batch production in 2013 and will not be manufactured ever again - its rarity serving as your guarantee of future value in the event of a sale in the years to come.

Length: 900mm
Weight: 8kgs

NO OBLIGATION – DECLARATION OF INTEREST - SEND NO MONEY NOW

I am potentially interested in the purchase of the following number of Mk 1 Second Class Corridor coaches

Please write in number

I understand this is an expression of interest only and that I am under no obligation to purchase. I will be contacted in August to confirm my order at which time I shall be asked to pay a deposit of £500 per coach with the balance due in November 2013 prior to delivery.
